<b>17:45</b>	<b>Close</b>

### 3 October

<b>08:15 – 16:30</b>	<b>PED Study Trip Parma <i>Separate registration!</i></b>
------------------------------	---

## Project-oriented breakout sessions

Throughout day 2 (October 2<sup>nd</sup>, 2025) of the DUT PED Conference, there will be one breakout session in the morning, and one in the afternoon.

- Each breakout session (BO1 and BO2) has 4 separate tracks according to the 4 key areas of action (KA) defined in the DUT Roadmap: 1) Integrated energy systems, 2) Energy markets and commercial viability, 3) Urban regeneration, 3) Energy in mission-oriented urban planning

- The morning breakouts highlight how PEDs represent a viable alternative to Europe's current energy systems: What are main achievements and impact created by PED projects in the 4 key areas?
- The afternoon breakouts will look ahead: Which gaps/challenges in the 4 key areas identified in projects need to be overcome for mainstreaming and scaling PEDs in Europe? How can we develop realistic pathways to integrating PEDs within Europe's key industries and sectors?
- Each breakout track has a dedicated and knowledgeable co-host. This co-host will introduce the track, introduce the keynote project pitch, and then facilitate the following conversation along a relevant and meaningful direction.
