GOAL

Enabling strategic action plans for Circular Economy (CE) that can effectively contribute to climate-neutral, sustainable, and just development of small and medium-sized EU cities.

ECLECTIC aims to provide new tools, metrics, and recommendations to combine existing and new knowledge, and to bring scientific evidence into action.

4 Specific objectives

Impact assessment framework

to model and characterize cities in terms of resource flows and stocks, and associated life-cycle environmental impacts.

4 City-Region Living labs (CiRLabs)

to identify cities' needs, targets and visions and co-select CE strategies through stakeholder engagement processes.

Key Performance Indicators

to assess and monitor CE action plans in line with cities climate plans and strategies.

Just and inclusive CE strategies

to address vulnerability and reduce inequality in selecting circular models benefiting vulnerable groups.

The 4 CiRLabs

City: **600.000** inhabitants
Region: **1.6 M** inhabitants
Extension: **25,247** km²

City: **52 000** inhabitants
Region: **562 841** inhabitants
Extension: **8,089** km²

City: **135 000** inhabitants
Region: **460 000** inhabitants
Extension: **4,335** km²

City: **105 000** inhabitants
Region: **535 775** inhabitants
Extension: **7,400** km²
